

PRIMER

ADHESIVE PRIMER FOR CYANOACRYLATES

● PRODUCT DESCRIPTION

ADHETRON PRIMER is specially formulated to promote bonding on apolar surfaces, polyolefins, polypropylenes, polyethylenes, silicones and more. Provides an excellent bond on most materials with low surface energy. Decreases handling and polymerisation time. Bonding of all difficult materials.

● PROPERTIES

Aspect	Liquid
Colour	Clear
Density	0.85
Flash Point	12°C

● INSTRUCTIONS FOR USE

Ready to use. Apply ADHETRON PRIMER onto clean and dry parts. Cleaning with Cleaner AC is advised before application.

Allow product to work until it has completely evaporated, then apply the cyanoacrylate glue.
